A Picture is Worth a Thousand Words...

Our Gasket Picture Guide (pgs. 57-67) shows all of the gaskets we offer in SSC# order. Gasket dimensions are also included for proper identification.

LAMINATED O-RING SIZING GUIDE

Use this guide to identify any loose O-rings you have lying around. The guide is laminated for protection and all O-rings are shown life size with the SSC number clearly marked. The guide is 8 pages long.

PUMP REPAIR / SERVICE KITS

PUMP REPAIR/SERVICE KITS

SSC's Pump Repair and Service Kits make it quick and easy to service pumps. We eliminate the guesswork sometimes needed when getting the right parts together for pump repair or service. All kits include the necessary O-rings, gaskets and pump seals. Each kit's contents and application are clearly identified on the package. All are skin-packed for display.

GAUGES

PRESSURE, VACUUM & COMPOUND GAUGES

SSC's gauges are constructed with a steel case painted black, all brass internals and a glass lens. Competitively priced, the styles to choose from are pressure, vacuum or compound.

LM = LOWER MOUNT
CBM = CENTER BACK MOUNT

PLASTIC CASE GAUGES

Our plastic case gauges are corrosion and weather resistant. They can be used in extreme environmental situations such as outdoor use or very wet areas where a standard gauge might rust. These economical gauges are constructed with a plastic case, a plastic lens and all brass internals.

LIQUID (GLYCERIN) FILLED GAUGES

SSC's glycerin filled gauges are good for applications where there is a lot of movement. The liquid inside the gauge acts as a vibration and pulsation damper, thus giving the technician a more accurate read. They are constructed with a stainless steel case, a plastic lens and all brass internals.

GASKET SHEETS

GASKET SHEETS

Available in various thicknesses, SSC's gasket sheets are perfect for emergency repairs and for replacing hard to find gaskets and washers. All materials can be cut into any shape or size. Available in the following materials and sizes:

CORK-RUBBER

The highest quality material of its kind, it can be used to seal applications involving oil or water. It will not shrink, stretch or lose bolt tension.

SSC#	SIZE

STICKY SPRAY

Sticky Spray is a convenient way to hold O-rings and gaskets in place during installation. Spray the surface where you are installing the part, wait 1-2 minutes until it becomes tacky and apply the part. The part can easily be separated from the surface at a later date. This product works especially well in troublesome installations such as putting spoke gaskets in multiport valves or cover gaskets in Hayward Super Pumps.

WINTERIZING EXPANSION PLUGS

Our Winterizing Plugs are made of
a high quality rubber for maximum
expandability which ensures a tight
seal. These plugs are perfect for
pressure testing the system for
leaks as well normal winterizing
applications. They are made of a
stainless steel slotted screw,
washers, rubber plug and nylon
wing nuts for easy tightening.

BOLT PACKS

SSC's Bolt Packs include any of the above listed Pipe Flange Gaskets individually packed with the appropriate ASTM-A307 Grade 2 hex head bolts with finished hex nuts. These kits offer the convenience of having all flange parts in one package. To order a kit just add the letters "BP" to the end of the gasket number listed above. For example to order a 4" full faced flange gasket (1/8" Red Rubber) bolt pack, use part #PF-400RF9BP.
