**NEW ANTI-ELECTROLYSIS ZINC ANODES**

Our new sacrificial zinc anodes are cast from pure zinc, not zinc casting alloys. They are designed to stop metal erosion and plaster discolorization due to electrolysis in salt system pools.

**ZINC SKIMMER WEIGHT ANODE**

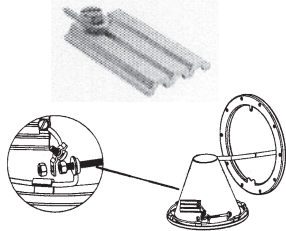

This can be placed in the skimmer basket or bolted in the basket as shown.

**ST-357**  
ANTI-ELECTROLYSIS ZINC  
SKIMMER WEIGHT  
Contains 1 Anode and  
1 Copper Lug

**ZINC UNDERWATER LIGHT ANODE**

Connect the anode to the copper lug using the #8 wire supplied. Install the copper lug and anode to one of the cap screws that hold the pool light together or install copper lug to light clamp ring as shown.

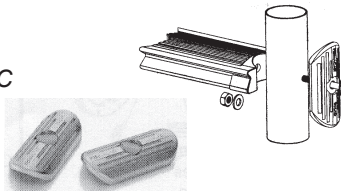

**ST-355**

Sold in Pairs

**BRASS HYDROSTATIC RELIEF VALVES**

These valves feature a solid brass body casting and cap casting that are precision machined for years of reliable service. The o-ring seal provides a positive seal to prevent any valve leaks. It actuates at a very low pressure differential - 5.5 inches water column (.2 psi). It is easily installed using a standard hex socket.

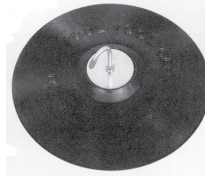

**ST-356**
